**Fiscal Year 2013 Tribal Consultation Annual Report
And Status Report
July 1, 2012 to June 30, 2013**

PROJECT RESULTS AND ACCOMPLISHMENTS

The agency's mission is to promote quality construction by Arizona contractors through a licensing and regulatory system designed to protect the health, safety and welfare of the public.

New construction in Arizona is still low compared to the past six years however activity in rural areas including Tribal lands remains stable. The Registrar of Contractors (ROC) maintains jurisdiction over contractor's licenses issued by the ROC. However, if a complaint is received arising from work done on Tribal lands; the ROC will not enter Tribal lands unless permission is granted by the appropriate Tribal authority. ROC notifies Tribal authorities when a complaint is received from licensed contractor activity arising on tribal lands, including complaints such as no-pays and other non-compliance by the licensee with Arizona licensing statutes that do not require intrusion by the ROC.

The ROC as a Licensing and enforcement agency does not have formalized projects per se, however, changes in handling complaints have resulted in increased action on licensees who have multiple complaints. For example, although this year, there was a slight decrease in contacts and complaints from 27 last year to 22, five complaints resulted in revoked licenses, and of the 20 formal complaints received, 67% were for payment disputes, 17% for workmanship, and 16% for other issues.

The following is a detail of current case status.

On January 31, 2013, the ROC Tribal Liaison attended an AZ Legislative Native American Caucus Meeting to introduce the ROC mission and Tribal Consultation Policy, and on February 5, 2013, the ROC Director and Tribal Liaison attended the 18th Annual Indian Nations and Tribes Legislative Day. Both meetings provided an excellent opportunity to meet tribal leaders.

CURRENT PROJECTS OR ACTIVITIES

The ROC continues to improve its procedures for capturing information on our new computer system and will work to enhance coordination with Tribal entities.

FUTURE DEADLINES

Continued participation in the Tribal liaison program to carry out Executive Order 2006-14 to enhance the agency's Tribal consultation policies and incorporate them into ROC operations. Continue to seek input from appropriate elected or appointed tribal officials and identify appropriate contact persons for each Tribe.
